GREETINGS TO PARTICIPANTS OF INTERNATIONAL MEDICAL FORUM AND INTERNATIONAL EXHIBITION OF MEDICAL TOURISM SPA&WELLNESS – HEALTHCARE TRAVEL EXPO

PETRO POROSHENKO

The President of Ukraine

Building of national healthcare industry – is one of the priorities of the state, and the main priorities for us are quality medical service, motivated specialists, transparent and competitive business conditions for manufacturers and distributors of medical equipment and pharmaceuticals. I hope that the professional exchange of views during the Forum will help to establish effective dialogue between experts, to present the latest techniques and methods of prevention, diagnostics and treatment that will promote and strengthen the nation's health.

IHOR LURIN

*Head of the Department of Healthcare and Social Policy
of the Presidential Administration of Ukraine*

Today authoritative platform of International Medical Forum allows determining strategic areas of work, establishing an effective dialogue between specialists, present latest techniques and methods of prevention, diagnostics and treatment. The event will promote implementation in practical medicine of innovation, dedicated to providing medical help over injuries received during military operations, as well as medical and social rehabilitation of military men.

OLGA BOHOMOLETS

*Head of the Verkhovna Rada Committee of Ukraine on Healthcare,
People's Deputy of Ukraine*

I congratulate you on holding annual International Medical Forum Medicine Innovations – the Nation's Health! Today we are on the threshold of modernization in the Ukrainian healthcare system, which should come with awareness of our responsibility. Despite all the obstacles and challenges, Ukrainian medicine is on the stage of implementation of large and complex tasks. On the way to reform it is important to use international experience, while maintaining the best domestic property and taking into account Ukrainian realities. I am convinced that your daily hard work also in the future will contribute to the important mission – to return people their health.

VICTOR SHAFRANSKIY

Deputy Minister of Health of Ukraine

The current Forum's format allows implementing professional scientific and education platform for experience exchange of scientists and practitioners, establishment of continuing professional development of doctors under the powerful integration of scientific programs, master classes of leading national and international experts and complex of various exhibitions of recent achievements in medical technology and pharmaceutical market.

ARTUR PALATNIY

*Head of the Verkhovna Rada Committee of Ukraine for Family,
Youth Policy, Sports and Tourism*

Now our country is interested in development of domestic medical tourism. Therefore, the Verkhovna Rada Committee of Ukraine on Family Matters, Youth Policy, Sports and Tourism supports the International exhibition of medical tourism. The exhibition promotes awareness of visitors and state guests of the high professional level of medical services in Ukraine and abroad, breaks the barriers arising at potential patients who decide to travel to foreign countries or to come to Ukraine. Highly topical business program of the event allows finding new partners, establishing business contacts, to get acquainted with tendencies of medical and health tourism development.

Vasyl Lazoryshynets, Director of M.M. Amosov National Institute of Cardiovascular Surgery of NAMS of Ukraine, SI

**VITALII TSYMBALYUK**

President of the National Academy of Medical Sciences of Ukraine, academician of NAMS of Ukraine

Forum is an important step for Ukrainian science and medicine. Thanks to the organizers of the Forum, we have a powerful platform where we may combine the capabilities and the potential of national and foreign specialists in all areas of healthcare sector, representatives of the state structures, scientific and business circles. 32 institutions will participate in the Forum on behalf of the National Academy of Medical Sciences of Ukraine. The outstanding professionals specialized in different areas will represent their developments within the framework of the scientific - practical program and exhibitions. It is a great opportunity for doctors to improve their skills, share experience and establish cooperation, as 65 scientific -practical events will be held during the Forum for representatives of all specialties.

YURIY VORONENKO

Rector of P.L. Shupyk National Medical Academy of Postgraduate Education, academician of NAMS of Ukraine

The Forum's work is focused on the best scientific and technical potential of our country. On the Forum represent their innovations in different fields of medicine 21 departments of P.L. Shupyk National Medical Academy of Postgraduate Education among which traditionally hold their scientific -practical events Department of Clinical Laboratory diagnostics, Department of Haematology and Transfusiology, Department of Medical Emergency and Department of Disaster medicine and Military medical training, and Department of Combustiology and Plastic Surgery, Department of Pediatric Otolaryngology, Audiology and Phoniatics Department and Otolaryngology, Department of Nephrology and Substitutive renal therapy, Department of Neonatology, Department of Neurology #2, Department of Therapy.

ANTON NAMOVETS

First Vice-President of the National Academy of Sciences of Ukraine, academician of NAMS of Ukraine

International Medical Forum allows demonstrating the competitive development of the National Academy of Sciences of Ukraine in the field of medicine, getting feedback and to find investors.

VITALII KLYCHKO

Head of Kyiv City State Administration

On behalf of the Kyiv community, let me congratulate you on the beginning of the VII International Medical Forum. As a rule, the events of such a scale serve not only as a meeting place for professionals, but also as a discussion platform that allows reconsidering existing achievements and making one more step forward.

**VASYL KNYAZEVOICH**

Head of the Department of Public Administration of Healthcare of the National Academy of Public Administration under the President of Ukraine

Now is the time that needs to find new, innovative forms and methods of training processes, joint efforts to achieve the goal - training of highly qualified personnel for healthcare industry in Ukraine. Taking into account this important role played by the International Medical forum Medicine Innovations – the Nation's Health, in which is a complex scientific-practical events devoted to topical issues of management and protection health. Forum brings together professionals who care about the future of our healthcare offers discussion aimed at the result - an effective policy on health.

KRASIMIR MINCHEV

Extraordinary and Plenipotentiary Ambassador of the Republic of Bulgaria in Ukraine

On behalf of the Embassy of the Republic of Bulgaria in Ukraine and on my own behalf, let me welcome you on the opening of the V International Exhibition on Medical Tourism, SPA&Wellness – Healthcare Travel Expo! Bulgaria and Ukraine are closely connected and friendly countries, being interconnected historically and culturally, and have similar customs and traditions, mentality. Bulgaria is a modern tourist destination that offers many opportunities throughout the year to relax and strengthen your health, which can be combined with interesting cultural and historical familiarization tours.

NATASA PRAH

Extraordinary and Plenipotentiary Ambassador of the Republic of Slovenia in Ukraine

By developing tourism, Slovenia uses the best endeavours to ensure that guests know about the country as a green, active and healthy tourist destination. Slovenia also highly appreciates Ukrainian guests. I am convinced that Ukrainian tourists will also feel good in a country which is close in cultural and linguistic terms, which has the great climate, quality service and reasonable prices.

JURAJ SIVACEK

Extraordinary and Plenipotentiary Ambassador of the Slovak Republic in Ukraine

Slovakia and Ukraine are close not only territorially. Our countries are bound by history, similarity of mentality, affinity of languages, coloring of customs, national traditions. V International Exhibition of Medical Tourism, SPA&Wellness - Healthcare Travel Expo is a relevant and necessary event that contributes to development of medical tourism between our countries, it's a platform that represents the opportunities to get high-quality medical services in Ukraine and beyond its borders, and medical tourism itself is a lifestyle of modern human being.

ERNO KESHKEN

Extraordinary and Plenipotentiary Ambassador of Hungary to Ukraine

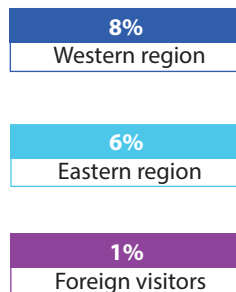

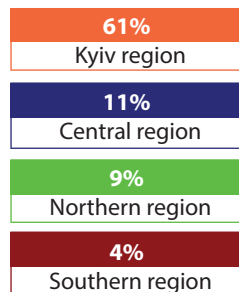

Hungary participates in this professional event almost from the very beginning, involving fundamentally new exhibitors at its national stand. We consider the Healthcare Travel Expo an excellent opportunity to present the healthcare and recreational resources of Hungary, created by the highly professional, reliable and creative team of organizers. No doubt that holding this exhibition and Hungary's participation will benefit the best health care of Ukrainians.

THE MAIN SCIENTIFIC-PRACTICAL EVENTS OF THE CONGRESS

The issues of public policy, healthcare reform, health insurance, financial and economic, organizational and legal mechanisms of management of medical institutions highlighted in scientific programs Organization and Management of Healthcare, Days of private medicine. Also a seminar State Medicine: realities of practice and VI Master class Private medicine: realities of practice. Organizers of the event – LMT Company, The Practice of medical establishment management, magazine.

O.O. Bohomolets National Medical University, Department of Healthcare Management successfully held the **II Chief Physician School**. And also conference **Autonomization of healthcare institutions: financial management and implementation of financing system based on the health-related groups in hospitals of second and third level of medical care** which gathered more than 170 healthcare executives.

NEW! For the first time at the Forum's platform, it was held **the opening session of the Public Council under the Ministry of Health of Ukraine**.

Numerous events of scientific-practical program Days of Laboratory Medicine gathered 1500 laboratory medicine specialists.

Within the program was held scientific-practical conference with international participation **Organization of dialogue of clinicians and clinical laboratory diagnostics specialists: modern methods of laboratory diagnostics of socially dangerous diseases**. Organizers of the event were the Ministry of Health of Ukraine, All Ukrainian Association of Clinical Chemistry and Laboratory Medicine, P.L. Shupyk National Medical Academy of Postgraduate Education, Technical Committee of Standardization 166.

Laboratory and Metrological Services of NAMS of Ukraine; Referential laboratory of NAMS of Ukraine; Acad. M.D. Strazhesko Institute of Cardiology, National Scientific Center of the NAMS of Ukraine, SI conducted scientific-practical conference **Applied aspect of modern science in laboratory diagnostics and clinical practice, as well as 10 intensive master classes in the framework of Ukrainian Laboratory School**.

NEW! For the first time it was held scientific-practical conference **Role of modern laboratory techniques in the diagnostics of infectious diseases and complications and the Meeting of the Ukrainian Society of Clinical Laboratory Diagnostics**. Event's organizer - All Ukrainian Association of Clinical Chemistry and Laboratory Medicine.

This year manufacturers and distributors of laboratory equipment such companies as **CHEMLABORREAKTIV, Ukbio, Vector-Best-Ukraine and BCM Ukraine** took an active part in the program and held their own scientific-practical events.

NEW! In the extended format it was held **scientific-practical program Medical Radiology**. For the first time on the Congress platform was held **joint meeting of the principal freelance professionals of the Ministry of Health of Ukraine on specialty Radiology, X-ray Radiography, Radiation Therapy, Nuclear medicine, Ultrasound diagnostics**.

ONLY ON IMF! It is increased significantly the organizational structure of the program Medical Radiology. Association of Radiologists of Ukraine, Ukrainian Association of Specialists in Ultrasound Diagnostics, Department of Radiodiagnostics of P.L. Shupyk National Medical Academy of Postgraduate Education, LMT Company conducted a series of master classes within **Ukrainian school of Ultrasound and Functional Diagnostics**. Master classes were held on innovative equipment that was provided by leading companies of the market.

In addition, a number of actual events were dedicated to innovative technologies in medical imaging, radiotherapy research methods in modern oncology, modern approaches to treatment of radiation damage and many other issues. Among the organizers of the section: Institute of Nuclear Medicine and Radiation diagnostics of NAMS of Ukraine, National Cancer Institute of the Ministry of Health of Ukraine, S.P. Grigoriev Institute of Medical Radiology of NAMS of Ukraine.

In the framework of scientific-practical program **Military Medicine** the leading specialists of NAMS of Ukraine institutions presented their developments, techniques and methods of medical care to ATO soldiers and the affected population. Leading experts were gathered by the II Interdisciplinary scientific-practical seminar **Battle injuries of musculoskeletal system: organizational, clinical, medical, social and legal aspects**. Organized were the Ministry of Health of Ukraine, NAMS of Ukraine, prof. M.I. Sytenko Institute of Spine and Joint Pathology of NAMS of Ukraine, SI, All-Ukrainian NGO Ukrainian Association of Orthopaedic Traumatologists.

NEW! There were held master classes and lectures **Modern aspects of tactical medicine** organized by the Ukrainian Military Medical Academy.

Ukrainian Council of resuscitation (resuscitation) and emergency medicine held trainings **Modern technologies of providing emergency medical care to victims of high-risk emergency situations**.

Issues of improving emergency medical services in Ukraine were discussed at symposium **Medical emergency conditions and disaster medicine**. Symposium was organized by P.L. Shupyk National Medical Academy of Postgraduate Education (Department of Medicine of Medical emergency and Department of Disaster Medicine), Departments of KhMAPE; ZMAPO; UNPTS Disaster Medicine; NGO Association of Urgent States Medicine and Disaster Medicine.

NEW! **Problems of medical rehabilitation of ATO soldiers and peaceful population** were discussed at the round table, which was held under the auspices of the Verkhovna Rada Committee of Ukraine on Healthcare. The event was organized by Ukrainian Research Institute of Medical Rehabilitation and Balneology of the Ministry of Health of Ukraine, SI, Ukrainian Scientific and Practical Medical Center of Neurology and Rehabilitation of the Ministry of Health of Ukraine, SI.

With great success it was held **School of Rehabilitation Medicine**, which is traditionally organized by Ukrainian Association of Physical Therapy.

ONLY ON IMF! The long-term partner of the Congress - the Department of Haematology and Blood Transfusion of P.L. Shupyk National Medical Academy of Postgraduate Education jointly with Kyiv City Blood Center of Department of Healthcare of Kyiv City Council and foreign experts organized a scientific-practical conference with international participation, **dedicated to the latest trends in the development of transfusiology and haematology**.

TRADITIONALLY! National Academy of Medical Sciences of Ukraine, Ukrainian Association of Cardiology, Acad. M.D. Strazhesko Institute of Cardiology, National Scientific Center of the NAMS of Ukraine, SI chose again the Congress platform for holding **Ukrainian Cardiological School named by acad. M.D. Strazhesko Stress and cardiovascular disease: a national strategy in the modern conditions of Ukraine**.

More than 100 specialists on ophthalmology gathered scientific-practical conference **Actual issues of ophthalmology** organized by V.P. Filatov Institute of Eye Diseases and Tissue Therapy NAMS of Ukraine and Society of Ophthalmologists of Ukraine.

NEW! Among the events that took place at the Forum for the first time, it worth highlighting scientific-practical conference **Introduction of modern technologies in family medicine**, organized by P.L. Shupyk National Medical Academy of Postgraduate Education, Institute of Family Medicine, International public organization International Association "Public health".

NEW! For the first time Heart Institute of the Ministry of Health of Ukraine, SI, Department of functional diagnostics of P.L. Shupyk National Medical Academy of Postgraduate Education took part in formation of Congress Program and held a scientific-practical seminar **Intervention technology treatment of heart failure and cardiomyopathy**.

ONLY ON IMF! Department of Therapy of P.L. Shupyk National Medical Academy of Postgraduate Education again brought together experts on II Therapeutic School.

PARTICIPATION OF SPECIALISTS IN CONGRESS EVENTS*

* Specialists could mark several clauses

**K.M. Amosova***Rector of O.O. Bohomolets National Medical University*

...we support the Forum and are co-organizer of this event that every year gathers together many healthcare professionals who want to develop and learn new things. The large-scale exhibition of medical equipment and pharmaceutical products will allow you to learn the latest advances in science, practical medicine and pharmaceuticals, to share experience and to establish new professional contacts and partnership relations.

O.B. Dynnyk*President of the Ukrainian Association of Specialists in Ultrasound Diagnostics, Main non staff specialist of the Ministry of Health of Ukraine on Ultrasound Diagnostics*

Ukrainian Association of Specialists in Ultrasound Diagnostics strongly supports the International Medical Forum as an important platform in the information realm of modern medicine of Ukraine. Ultrasound diagnostic advances are well represented in the exhibition stands, schools and workshops, which highlights the achievements of world and national science and technology. We wish that communication of clinicians and ultrasound diagnostic specialists in format of ultrasound equipment stand presentations, lectures and workshops of Medical Forum 2016 will become a source of inspiration, mastery of new techniques, professional knowledge and accomplishments.

**H.H. Luniova***President of the All-Ukrainian Association of Clinical Chemistry and Laboratory Medicine, head of the Department of Clinical Laboratory Diagnostics of P.L. Shupyk National Medical Academy of Postgraduate Education, professor*

Clinical laboratory diagnostics is one of the areas that is most intensively developing today. Laboratory medicine has high research intensity. New fundamental discoveries in biology and medicine, new technologies and equipment contribute to the role of laboratory diagnostics in medicine. I hope that the scientific forum will be a source of scientific knowledge of laboratory medicine professionals, will facilitate to the exchange of information, experience and the formation of new views on the most pressing problems of laboratory medicine.

**T.I. Gavrylenko***Main specialist on laboratory diagnostics of NAMS of Ukraine, Vice president of the All Ukrainian Association of Clinical Chemistry and Laboratory Medicine, head of immunology laboratory of the Acad. M.D. Strazhesko Institute of Cardiology, National Scientific Centre of the NAMS of Ukraine, curator of Referential laboratory of NAMS of Ukraine, professor*

For many years the Forum has been contributing to professional development of laboratory specialists, helping to solve problem issues of modern laboratory medicine directions. During number of events of the program Days of Laboratory Medicine, we are discussing the most important and the most current scientific-practical problems of the industry. Over the years our cooperation with Forum Ukrainian laboratory school became a brand. Master classes take place every year within the school aimed at demonstrating the latest developments, improvement of working methods, obtaining professional advice from renowned experts of laboratory industry.

D.D. Dyachuk*Head of NGO Ukrainian Association of Chief Physicians, director of State Scientific Institution Scientific and Practical Centre of Preventive and Clinical Medicine of the State Management of Affairs*

One of today's strategic objectives is to improve the quality of management personnel. The International Medical Forum Medicine Innovations – the Nation's Health as part of which are held a complex of scientific-practical events dedicated to the urgent issues related to healthcare organization plays an important role in this process. The Forum was included into the schedules of healthcare leaders, scientists, doctors and healthcare business representatives many years ago. The event unites us, it focuses on the results, allows not only to discuss the progress of reforms, but to develop and to make constructive proposals for further modernization of medicine.

**V.V. Lazoryshynets***Director of M.M. Amosov National Institute of Cardiovascular Surgery of NAMS of Ukraine, SI*

International Medical Forum annually proves the status of prestigious event in healthcare industry. The event unites professionals, interested in development of medical science, widening of cooperation network among scientists, practitioners and expert business circles. I proudly can state the fact that the Forum became a traditional meeting place of experienced and young cardiologists, heart surgeons and professionals from related branches. Highly intensive program is represented by numerous reports and master-classes within the framework of which professionals share their experience and improve their professional level. It is not solely a scientific event, but also a large-scale forum for business. Leading companies - manufacturers and suppliers of medical equipment have possibility to present their products and establish contacts for further effective work.

N.V. Pasychnikova

*Director of V.P. Filatov Institute of Eye Diseases and Tissue Therapy of NAMS Ukraine,
Chairman of the Society of Ophthalmologists of Ukraine*

Today V.P. Filatov Institute of Eye Diseases and Tissue Therapy of NAMS of Ukraine is a constant participant of the Forum. We are glad to have the opportunity to share with colleagues our own developments. And we can be proud of! Within the walls of the Institute held all kinds of eye diseases diagnostics using Innovative technologies, specialists conduct unique surgeries. This are powerful school of professionals who are open to sharing experience, expanding business contacts. I am deeply convinced we will continue to develop the direction of Ophthalmology in the Forum's framework and every year will increasingly unite professionals who are interested in. We invite companies-suppliers of ophthalmic equipment, specialized tools, consumables, medicines for cooperation!

V.O. Rohozhyn

President of Association of Radiologists of Ukraine

From the very beginning Association of Radiologists of Ukraine is a partner of International Medical Forum and supports the organizers in an effort to develop national radiology, conduct scientific-practical events, master classes for continuous improvement of professional knowledge and training of radiologists. Forum - professional event with interdisciplinary basis that allows looking at current issues and problems of national radiology at different angles, a comprehensive approach to solving them, involving manufacturers and suppliers of medical equipment to set up common goals, identify strategic directions.

B.M. Todurov

General director of Institute of Heart of Ministry of Health of Ukraine

International medical forum has proved precisely the platform that allows to share experience, establish business contacts and develop cooperation between medical institutions, manufacturing companies and distributors of medical equipment and drugs.

T.A. Yalynskaya

*Chief Specialist Ministry of Health of Ukraine on specialty «Radiology.
Roentgenology», head of radiation diagnosis of SI» Scientific
Practical Medical Center Pediatric Cardiology and Cardiac Surgery MOH Ukraine»*

Forum – is a platform for the integration of knowledge and development of national and foreign scientists, medical equipment manufacturers. Consequently medical radiology – is a key focus of the event. Scientific program allows various schools to present their methods and techniques, exchange of experience. The active participation of companies strengthens and broadens cooperation between them and practitioners. I am deeply convinced that the work of the Forum will stimulate development of medical radiology in Ukraine, will develop new approaches to diagnostics and treatment.

Information partners of the Forum and Exhibition

This year surprised us by intense of events, big attendance of experts. We got a huge pleasure from participation in the Forum: new customers, new partners, and new ideas. Many thanks to LMT Company, General developer Nauka and Expoplaza direction for support in preparation to the Exhibition, organization of our own event, for creation the most pleasant conditions for complete work. We wish you prosperity, large and bright ideas for the benefit of medicine!

Vector-Best-Ukraine

Forum left positive impressions. We note the organization of the event on a good level, great attendance and number of participants. In general, participation in the Forum was successful. Thank you.

RUS-KO

Forum pleasantly surprised by its scale and quality of visitors and participants. There was great number of representatives of medical institutions from different regions of Ukraine. Overall, we enjoyed everything and we will certainly take part in future.

UKRORGSINTEZ

International Medical Forum again gathered experts who live for medicine and want to share their achievements, expand their knowledge and interests. Annually our Centre held on the Forum's platform its scientific-practical event, invites experienced experts, gathered associates. Endovascular treatments are widely used in Ukraine since the mid 70's years when Professor V. I. Shcheglov one of the first in the world introduced and applied endovascular saccular aneurysm exclusion method. To date, the scientific-practical capacity and experience of specialists of Scientific Center of Endovascular Neurosurgery of NAMS Ukraine, SI allows treating patients with congenital or acquired vascular disorders using modern technology at the highest level. We always welcome the opportunity to present our developments on our stand.

D. V. Shcheglov

Director of Scientific-practical Center endovascular neurosurgery NAMS Ukraine, Head of Ukrainian public organization Ukrainian association of endovascular Neurosurgery, MD

Participation in the Forum provided an opportunity to organize more private meetings, both with existing partners and potential ones. We were able to discuss working conditions and further development. Through the Forum we evaluated the market situation.

VOLES

The Department of Combustiology second time actively participated in the Forum as organizer of Scientific Conference. We are seeing great growth, increasing the number of specialists and participants. Thank you for the opportunity to share our medical experience, learn from achievements of colleagues, visit the medical exhibition that reflects the latest trends of the industry.

G. P. Kozinets - Head of Department of Combustiology and Plastic Surgery, MD, professor

The organization of the Forum was fully satisfied us! Well done! We wish to keep it up.

MIZ-MA

Organizing Committee of the Forum and Exhibition thanks to Partners, Co-organizers, Participants, and Visitors for assistance in the events conducting in 2016 year
